Version: 2.1.0.0.. dctxbb5 tools v2.2.0.3 hwk by sarasoft free download links.Q: Firebase Authentication: Required Screen not generated I'm using a Firebase Authentication SDK.

```
@Override public void onStart() { super.onStart(); // Inflate the layout for this fragment final View navigationView =
    getLayoutInflater().inflate(R.layout.fragment_main,
        container, false); //... // instantiate the client and sign in with
    Firebase client = new FirebaseClient(getContext()); auth =
        FirebaseAuth.getInstance(); mAuth =
    FirebaseAuth.getInstance(); } I created a Required Screen for an App that lets the user to add an email address. When I try to sign in, I can't see the error message so the validation of the required field is OK. I'd like to fix it. A: If you are making a FirebaseApp based on the default App, Firebase does not generate the required screen. This is because as the app is not tied to any user account so there is nothing to show to the user. If you want to see the required screen you should make a new FirebaseApp by using the following code: Fireba
seDatabase.getInstance().getReference().child("Users").child("InactiveUser").child(user.getUid()).child("appdata").setValue(value).addOnCompleteListener(new OnCompleteListener()
{ @Override public void onComplete(@NonNull Task task)
    { if (task.isSuccessful()) {
```

Download

The screenshot shows a user interface for downloading a file. On the left, there is a blue folder icon containing a cloud. Below it, the version number '6.4' is displayed next to a five-star rating and the text '2865 VIEWS'. To the right of the folder icon, the text reads 'File was found and ready to download!' followed by 'UPDATED 14 HOURS AGO'. Below this, it says 'Fastest Source: useenet.nl' with a small orange checkmark under the 'e' in 'enet'. A note below that says 'Click the download button and select one of the found cloud sources.' A prominent blue 'Download' button with a downward arrow icon is centered. To its right, there is a lock icon and the text 'SECURE SCANNED'. Below the main content area, a message states 'You need to [log in](#) before you can post comments.' At the bottom, there are three navigation icons: a signpost for 'Navigation', a folder with people for 'Registration', and a circular refresh icon for 'FAQ'.
